INDIAN NAVY FIRES BRAHMOS MISSILE FROM INS CHENNAI DURING TROPEX 2017

In a show of strength, on 06 February 2017, Indian Navy test fired BRAHMOS Surface to Surface missile (SSM) from INS Chennai, during the Annual Theatre level Readiness and Operational Exercise (TROPEX) 2017. TROPEX witnessed a host of exercises including firing of BRAHMOS Supersonic Cruise Missile and operations of the combined Fleet in a complex multi threat environment including sub surface and air threats.

BRAHMOS EXTENDED RANGE (ER) MISSILE SUCCESSFULLY TEST-FIRED

As part of capability enhancement endeavour, a major milestone was achieved on 11 March 2017 when an enhanced version of the BRAHMOS supersonic cruise missile with an Extended Range (ER) was successfully test-fired from the Integrated Test Range (ITR) Chandipur at sea in Balasore, off the coast of Odisha.

In a historical first, the formidable missile system once again proved its mettle to precisely hit enemy targets at much higher range than the current range of 290 km, with supersonic speed of 2.8 Mach, thus meeting its mission parameters in a copybook manner.

The new benchmark which was set by Chairman DRDO Dr. S Christopher during Aero India 2017 in Bengaluru has been remarkably achieved by BrahMos Aerospace.

UNVEILING OF BRAHMOS MISSILE MODEL AT DRDO HQRS. COMPLEX BY CHAIRMAN DRDO

Dr. S. Christopher, Chairman, DRDO & Secretary, Department of Defence R&D unveiled the model of world’s best supersonic cruise missile BRAHMOS in the presence of Dr. Sudhir Mishra, DS and CC R&D (BRAHMOS) and CEO & MD of BrahMos Aerospace at a function held on 28 February 2017 at DRDO HQ in New Delhi.
