## BRAHMOS MISSILE WITH INDIGENOUS SEEKER SUCCESSFULLY TESTED FIRED

India on 22 March 2018 successfully test fired the BRAHMOS Supersonic Cruise Missile with an indigenously developed seeker at Pokhran test ranges in Rajasthan.

Defence Minister Nirmala Sitharaman said through her tweet "Formidable Supersonic Cruise Missile #BrahMos was successfully flight tested at 8:42 AM today at Pokhran test range, Rajasthan. The precision strike weapon with Indian-made seeker flew in its designated trajectory and hit the target with pin-point accuracy."

## BRAHMOS MISSILE TEST FIRED TO VALIDATE "SERVICE LIFE EXTENSION"

BrahMos Supersonic Cruise Missile was successfully test fired at 1040 hours on 21 May 2018 at the Integrated Test Range (ITR) in Balasore, Odisha as part of Service Life Extension Programme. The life extension test firing of BRAHMOS was conducted from a Static Inclined Launcher, proving the efficacy and longevity of the system which was witnessed by Scientists from DRDO and BrahMos.

Defence Minister Smt. Nirmala Sitharaman congratulated team BrahMos for the successful launch of BRAHMOS Missile with new technology.

## INDIA TEST FIRES SECOND BRAHMOS SUPERSONIC MISSILE IN 24 HOURS

For the second time in just over 24 hours, team BrahMos and DRDO successfully carried out yet another flight test at 1145 hrs on 22 May 2018 from ITR Balasore. The supersonic cruise missile was launched from a Mobile Autonomous Launcher (MAL) to prove major subsystems manufactured indigenously with Indian raw materials under "Make in India" campaign of Govt. of India, meeting its mission parameters completely.

"Through this launch the critical indigenous components including fuel management system and other non-metallic airframe components have qualified to form part of the missile," Dr. Sudhir Mishra, CEO & MD of BrahMos Aerospace — said.

## HANDING OVER OF NEWLY DESIGNED & DEVELOPED QUAD LAUNCHERS BY L&T DEFENCE

BrahMos takes an exemplary lead in the Govt's Make-in-India drive as L&T Defence hands over 'Quadruple Canistered Inclined Launcher' (QCIL) prototype for BRAHMOS missiles to Dr. Sudhir Mishra, DS & DG (BrahMos) DRDO and CEO & MD BrahMos Aerospace at L&T's Strategic Systems Complex, Pune on 05 May 2018.
